# OVERVIEW

*Red Amaryllis* offers an unforgettable, heart-wrenching true story of struggle and adversity underpinned by one ordinary woman's extraordinary ability. Centred on a David versus Goliath historic court case against one of the world's largest financial institutions, Legal & General Assurance Society Limited. This real-life memoir by Denise E. Jacobs is a deeply personal account of the events surrounding the invention of inflight entertainment for aeroplanes and taxis and an eight-year legal battle through the Royal Courts of Justice. Perhaps most notably, though, is how her story comes with a stark warning about an impending nuclear conflict.

There are many cynics who may disagree with any possibility of an afterlife, but the countless examples of evidence in Denise's astonishing life story, will challenge even the greatest of cynics to take notice. Time after time, with numerous witnesses along the way, *Red Amaryllis* provides compelling proof that demonstrates how she was able to uncover hidden evidence at critical times, shocking the Legal & General's five-star legal team. If you do not believe in the possibility of psychic guidance before reading *Red Amaryllis*, you'll soon reconsider after finishing this fascinating book.

# BIOGRAPHY

Denise E. Jacobs was born and raised in the north east of England. She trained as a hairdresser in London with the prestigious Robert Fielding of Regent Street School of Hairdressing. Back in Darlington, she established her own award-winning salon. It was a few years later, in 1983, that Denise first became able to foresee future events with increasing accuracy. In the first of many remarkable incidents, she was able to warn her father that he was going to be involved in a car accident the following day. He didn't believe her, but the following evening the accident happened exactly as predicted. If you're cynical about claims of the afterlife, don't worry - so was Denise. She didn't believe a word of it herself at this early stage. But in *'Red Amaryllis'*, you'll learn that over the months that followed, there were many such similar incidents. Denise's 'messages' developed to the point that she could pass along information to a range of people about the past, present, and future. A year after receiving her first message, Denise was shown the first of the warnings that would come to redefine the direction of her life. It was Celia, a family member who had recently passed away, who showed her a horrifying vision of the global nuclear conflict yet to come unless all nations alter a course from a path of aggression and instead pursue world peace.

Central to Denise's story is an extraordinary, almost decade-long legal battle, held in the Royal Courts of Justice, London. Denise and her husband Michael were the originators of the in-flight video entertainment we watch today in aeroplanes and taxis. But early in their company's development, they were the victims of an advanced-fee fraud, resulting in the loss of their company and worldwide patents and which left them destitute and homeless. Denise and Michael, left with no option, decided to sue Legal & General Assurance Society Ltd, one of the largest financial services institutions in the world, whose agent arranged a financial business package with fraudsters. Not just any fraudsters, but those involved in smuggling for Pablo Escobar. It appeared to be an unwinnable David versus Goliath case -- two people with no financial resources and without any prior legal knowledge representing themselves against a vast company, a household name, with bottomless funds and five-star legal team.

*"The world does not deserve to suffer for the actions of our blinkered warmongering world leaders."*

But then in 1992, Denise lost her younger brother, Paul, who died of brain cancer at the tragically young age of 34. However, he soon appeared to her, assuring her of his survival after death and his ability to see our past, present and future. With the help of her late brother, who pinpointed the exact locations of the vital documents which held the keys to the case – she proved that those in the next dimension do exist and their messages are real. The reactions within the Legal & General's legal team soon turned from mockery to astonishment. You might be rolling your eyes at the impossibility of this story, but faced with the new evidence unearthed with Paul's help, the Legal & General agreed to settle this historic court case, offering a substantial amount of money in settlement. Concerned at what Paul saw in our future, like Celia, he told Denise that her astonishing life story was part of a larger plan. It was to pass on the message of warning of what is to come if we don't change direction before it is too late.

DENISE E. JACOBS' LATE BROTHER, AND GUIDE, PAUL.

Many of those who already know her story have been given sufficient proof to accept her messages as true, because they have experienced Denise's ability for themselves. A curated selection of these testimonies is included in *Red Amaryllis*, meaning its underlying message is supported by the testimony of many credible witnesses, such as a medical specialist, lawyers and a High Court Judge.

# A NUCLEAR WARNING

According to the powerful communications that Denise E. Jacobs has received, and as detailed in *Red Amaryllis*, the seeds of our mutual destruction will grow within the Middle East, with Iran as the catalyst that rapidly brings all nations into a Third World War.

Denise has been warned that this global conflict—the war to end all wars—will reach the point of no return in 2025, just a few years

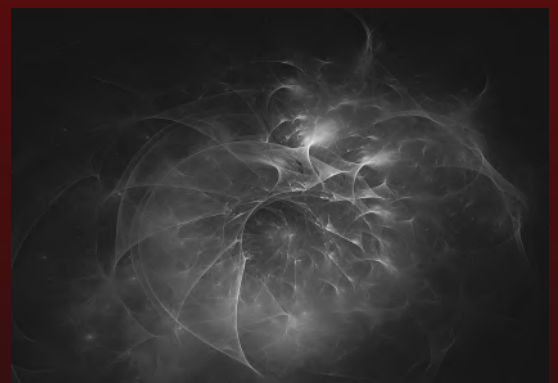

from now and escalate until such a time as billions of men, women and children will die—many instantly with the total annihilation of cities—and no corner of the world will be immune. Those that do not perish soon after of their injuries, of starvation, or violence as their societies break down, will instead be killed by the resulting nuclear winter that will

blot out the Sun and turn the face of the Earth into a frozen, lifeless wasteland. Time is ticking down and all of us have only one crucial choice to make: will we continue to accept the status quo until it is too late, or will we and our world leaders choose a new direction of peace?

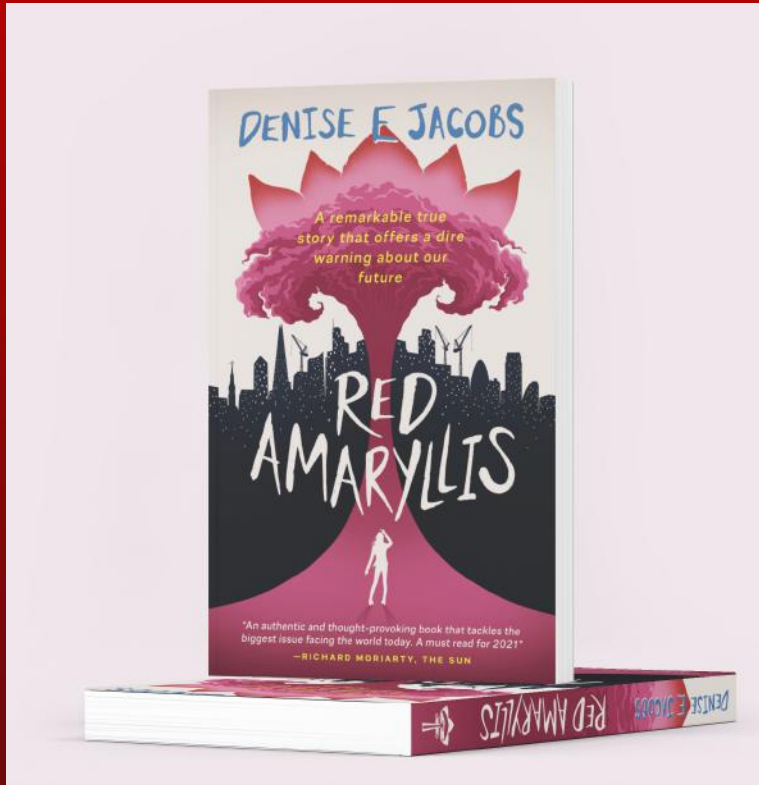

## THE NEXT PHASE OF EXISTENCE

Denise is the first person to say, when asked about an afterlife, that she does not know all the answers. The world to come is, after all, beyond the frame of our limited experiences and knowledge. What she does know is that the next phase of existence is not tangible. It is a realm of energy where we all enter upon our death, irrespective of individual beliefs. There is, however, a greater force that binds every one of us, living and dead, and this all-powerful presence can be described as an 'Omnipotent Power'. This entity she describes as a power of pure love that wants only the best for humankind. Similarly, all those who have entered this realm before us wish only for our happiness, prosperity and growth. For these reasons, and these alone, her late brother and other departed loved ones have called upon Denise to try to prevent humankind's mutual assured destruction in a Third World War.

# RED AMARYLLIS BY DENISE E. JACOBS

*Red Amaryllis is an absorbing account of author Denise E. Jacobs' life and journey, and a rallying cry for us to save this precious world of ours – before it is too late.*

Once in a lifetime, an astonishing true story comes along that not only captivates, but also makes you re-evaluate your beliefs. *Red Amaryllis* is one of those stories. This true story serves as a thought-provoking and remarkable life story of a naive couple pitted against Legal & General Assurance Society Ltd, one of the world's largest financial institutions. This decade-long historic legal battle will evoke amazement and horror at the lengths to which corporate avarice will go. What amazes more is the amazing fight-back from Denise and Michael, two determined and relentless individuals. However, there is much more to this story than meets the eye. Denise's desperation transforms her into a survivor ... a bona fide juggernaut and force of nature who refuses to take 'no' for an answer. In a story which

smartly mixes unflagging inspiration with humour, it slowly becomes clear that in Denise's drive to win her case, she develops an uncanny ability to uncover hidden evidence which has far greater implications. Denise's life journey will demonstrate an extraordinary and proven ability to unlock the past, expose the present, and see the future. In a dramatic twist, the story showcases a terrifying warning to us all. For the past 36 years, Denise has foreseen the political events leading towards a worldwide nuclear conflict, and now it is just a few short years away - unless we all make our voices heard and demand that those with power turn back from the brink. The future of the planet is in our hands and time is running out.

# DENISE E. JACOBS - PRESS & PUBLICITY

*Red Amaryllis* by Denise E. Jacobs presents a terrifying vision of nuclear Armageddon. Her warnings of an impending World War III has attracted significant media attention. Selected media exposure includes...

*The Scotsman*

"*Red Amaryllis* offers an unforgettable, heart-wrenching story of struggle and adversity underpinned by one ordinary woman's extraordinary calling."

Reader's  
digest

*Reader's Digest*

"If you don't believe in an afterlife or higher purpose then *Red Amaryllis* will make you think again."

*Female First*

"A clarion call for peace, love and understanding but, more importantly, a convincing entreaty for us all to act before it's too late."

FEMALE FIRST

*The Yorkshire Post*

"If you have any concerns about where the world is heading then you have to read this book."

*Soul & Spirit Magazine*

"Unless we demand that those with power change direction, Jacobs' foreseen horrors will become known to us all."

# TESTIMONIALS

Over the years, Denise E. Jacobs had come to impress many people with her gift, leaving them in no doubt that she is genuine. Much of the material in her book, *Red Amaryllis*, has been confirmed by witness statements testifying to Denise's ability and the accuracy of her predictions. Here are the honest testimonies of just a few of them...

**"Denise told me that she had received messages of help that I was in a deteriorating state and that I might be dying. She urged me to listen to her and follow her directions immediately. She told me that certain elements of my diet were combining to drive a deteriorating cardiac condition. As a western trained physician, I had my doubts about any of this, but thought it wouldn't hurt to try it. The results were immediate. Instead of having sustained attacks once weekly, with an entire day down with disability, I experienced no more than one or two brief episodes in the next six months with no disability. I am eternally grateful to Denise, and her bold determination to deliver these messages to me. At the time, it was quite difficult to believe the basis of her information; applying it has immensely improved and possibly saved my life. She never asked for anything in return."**

*– Richard V. Colan MD., S.C., Consultant Neurologist, Wisconsin, USA*

**"Over the years, I have had the privilege to receive many unbelievable messages from Denise. Early on, she proved that those messages were eerily accurate, and left me in no doubt that we are being watched from another dimension, and that when we die, it's not the end of everything, just another beginning!"**

*– Terry Bilton, Wisconsin, USA*

**"After my mother's passing, Denise telephoned as she had received a message from her. Denise talked about keeping memories from my parent's home and bizarrely, one item she suggested was a blue tool box with a heavy hammer. Before my mother died, she had said she wanted to make sure my husband, Philip, had my father's tool box and yes...it is blue... and when we opened it, we saw that it contained an unusually heavy hammer!!!"**

*– Deborah Bright, London*

"From being a complete cynic, when I first met Denise, her extraordinary gift has amazed me. The messages she received on my behalf, when I most needed support, all came true exactly as she had described. Denise's story is remarkable and may well make those who are sceptical question their beliefs."

– Philip Bright, London

"On 21st October, 2008, my wonderful Mum passed away – I was devastated. Denise told me to cheer up and that Mum was with her telling her to tell me she was fine. I asked Denise how she could prove the message was from my mum. Denise told me Mum wanted to say that she loved Custard Creams. These were her absolute favourite biscuits, she adored them and there was no way Denise could ever have known that. I feel so very grateful to Denise. Her messages went a long way to helping me through this bereavement. Denise is one in a million."

– Bill Blass, Middlesex

"You asked me to revisit the past and in particular the part I played in the story of how you succeeded in your court case. The unbelievable truth is that you had been given a message in 1987 which enabled you to meet me in anticipation of me providing you with the evidence you needed in 2002, fifteen years later."

– Nick Montgomery, West Sussex
